About This Game

Everybody knows the giant vehicles preparing the white tracks for skier. No slope is too steep and no snowbank too huge. As driver of such a monster, it's your job to prepare the runs in a giant ski area. Everyday crowds of people arrive at the peak of the mountain, ready to ski down perfectly prepared trails – and it's up to you to make their wish come true. In order to fulfill this duty, the player must handle snowcats in various sizes. In addition to the ski runs, you must use high volume snow blowers to keep the roads to the ski area clear as well.

It's not an easy job. Strong winds and heavy snowfall exacerbates conditions on the slopes. There is only one way to get the job done - enter the snowcat. So start the engine and get this monster moving. By day or by night, it does not matter, the runs must be prepped before the first skiers arrive. Lower the shield of the snowcat and get ready to smooth & groom the slopes.

Features

- Multiplayer via LAN

- Fantastic Winter-Landscape with rundowns and ski-tracks

- Animated skiers and ski-lifts

- Dynamic snow system

- Weather effects

- Choose from a variety of huge snowcat models

- Keep the roads clear with the high volume snow blowers

Great game if you want an extremely buggy incomplete game that you can play with your friends and trash talk about it until it crashes your computer and you request a refund.. I took a crap once that came to life. That animated turd found a mate and they together were married and had several turd babies. One of those turd babies married a used diaper. Together they had one child. That child grew up and became a game developer and created a game called Snow Cat Simulator to sell on Steam.

This is not Farm Simulator with snow.

It is a thrown together turd\/used diaper which sucks.

. Wanna know whats helpful? This, DONT BUY THE GAME. This is probably the worst game ever waste of money do not buy the graphics are terrible and controls are stupid i highly suggest not waste your money on something that belongs in the garbage.. What a game 10\/10 would uninstall again

Seriously boring. Doesnt even start, and steam didnt want te refund me
